NOTICE.

PUBLIC NOTICE is hereby given that

His Honor the Lieutenant-Governor

has this day been pleased to order that

at the places following, namely:

REGINA,

Wednesday, 12th September, 1888.

TO THE ELECTORS

Of the Electoral District of

Eastern Assiniboia.

GENTLEMEN:

No doubt you are aware that I

have been offered a seat in the Do-

minion Cabinet, made vacant by the

untimely and greatly to be deplored

death of the late Honorable Thomas

White. After due consideration

and with a knowledge of the great

responsibility attached to the office,

that of "Minister of the Interior," I

have accepted, and I now come be-

fore you to ask you to permit me

to represent in the House of Com-

mons, the important Electoral Dis-

trict of Eastern Assiniboia, in which

a vacancy has taken place through

the elevation of Mr. Perley to the

Senate of Canada.

The kindly feelings and promises

of support, which have already

reached me from all parts of your

district, give me confidence that my

wishes will be favorably entertained

by the large majority of the Electors.

The bulk of the work in connec-

tion with the Department of the

Interior emanates from the west,

and especially from the Northwest

Territories, and it is my wish (as I

consider it my duty) now that an op-

portunity is afforded me, to represent

a constituency, the most populous

in the Territories, among whose

people I have lived for the last six

or seven years, and who have given

me on so many occasions proof of

their confidence in my late adminis-

tration of the affairs of the Terri-

tories, while occupying the honora-

ble and responsible position of

Lieutenant-Governor.

The granting of representation in

the Parliament of Canada, a few

years ago, to the Territories, afford-

ed the people of the West a more

ready means of communication

with the Central Government than

they had previously had. Now

that their demands for a Minister

to represent the country west of

Lake Superior have been granted,

H. B. RAILWAY.

MAIN LINE TO QU'APPELLE.

EARLY COMPLETION.

Should the Manitoba Government

stand by promised aid to the Hud-

son's Bay Railroad, it is understood

that definite arrangements have been

made for the completion of the en-

tire line in two years and a half.

When the project is complete as its

promoters intend it shall be it will

have an appearance on the map

similar to the following.

Qu'Appelle. Winnipeg.

The Winnipeg Sun says: "It

will be seen that but a small portion

of the system will lie in Manitoba,

and that there is much of the trade

that will be lost to this province.

There is therefore no reason why

our legislature should give aid to a

larger extent, than say a guarantee

upon \$6,400 per mile for the line

within the province."

BRANDON TRAGEDY.

A Brandon Man Murders His Wife

in the Presence of Her

Four Little Children.

BRANDON, Sept. 1.—This after-

noon the people of Brandon were

startled by the fact that for the

first time a murder in cold blood

had been committed within its

limits. The shooting took place at

the house of the murderer, whose

name is W. H. Webb. About 16

o'clock two of the neighbors, who

were passing heard the report of a

gun and on being beckoned by

Webb's eldest boy, hurried to see

what was the matter. On

arriving there they found Mrs Webb

lying prostrate on the floor. The

alarm was immediately given and

Dr. Fleming sent for, who upon his

arrival, examined the body and said

death must have been almost instan-

aneous. It appears that Mrs Webb

was ironing at the time, when Webb

standing about six feet away pulled

the trigger of a gun just as she turn-

ed her head around to look over left

shoulder, emptying the contents of

a No. 12 cartridge into her head be-

low the left ear. Webb gave him-

self up to the chief of police. He

committed the deed in the presen-

ce of his four children. On being

asked why he did it he said sh-

provoked him to it. On Monday

Cornet Spencer held an inquest at

which the jury brought in the fol-

lowing verdict: That the deceased

came to her death by being shot

and murdered by one Wm. H. W.

with malice aforethought.

U. S. CROPS FROZEN.

The weekly crop report from

the Northwest was received at the

Manitoba general office this morn-

ing. The reports show an average

yield of about 18 bushels of wheat

to the acre in the central and north-

ern portion of the state, and about

15 bushel to the acre in Dakota and

the extreme west. The harvesting

and threshing is nearly all com-

pleted throughout Minnesota, and is

progressing rapidly in Dakota.

While the wheat in the northwestern

locality has been somewhat damaged

by frost, it is not nearly so bad as

was at first reported, and owing to

the fact that the farmers get about

the same price this year for No. 1

Northern as was received last year

for No. 1 it is anticipated that they

will be better off this year than last.

The most favorable reports come

from points on the Watertown,

Aberdeen and Ellendale branches.

Several elevators along the lines

have commenced receiving new

wheat.—St. Paul Dispatch.

It will be remembered that just

before the last frost the Herald pub-

lished a statement by Manitoba farm-

ers that frost could be kept from

crops by burning straw and causing

smoke to spread over the fields. A

case is just reported from the Pem-

bin mountains of a farmer, Wm.

Logan, who took the precaution ad-

vised. He placed straw on the

Northwest sides of his wheat and

lighted it soon after the sun went

down. He had one twelve acre

field for which he did not have

LITERATURE.

One of the minor regrets which the

observer of contemporary literature

must feel in view of the fact that he

will probably not be alive a hundred years

hence is that he cannot know what is

to become of all estimable books which

the press is now pouring out. If he is

Address, JAMES WEIDMAN, Qu'Appelle Station, Assin. E. J. WEIDMAN, Proprietor.

BY ACCLAMATION.

That is the endorsement that the new Minister of the Interior should receive; though there has been some talk of opposition coming from the Moose Mountain country. The reason assigned is because the C. P. R. have not extended their south-western branch to give the people of Southeastern Assiniboia railroad facilities. It is true that the people of that section have suffered much for want of transportation for their produce, but how opposition to Mr. Dewdney would improve matters in that line we fail to see. Under the circumstances such opposition could not succeed, and if it could, it would not bring the desired railroad. This is a bye-election, and the Government or the C. P. R. are not at present before the whole country. Strong representations have been made to Mr. Dewdney, and no doubt he will do just as much to urge the C. P. R. to extend their branch, as if he were opposed, whether successfully or unsuccessfully. If it is at all in Mr. Dewdney's power to help the Moose Mountain country to get a railroad he will do it. This cannot be questioned, if his past solicitude for the welfare of the Territories in every part while ably filling the office of Lieut.-Governor, goes for anything. We take it that his popular administration of Territorial affairs is the best guarantee that he will do his utmost to help the Moose Mountain district or any other to obtain required railroad facilities. The latest reports are that the people of Southeastern as well as all other parts of Assiniboia East are determined that Mr. Dewdney shall be elected by acclamation.

NOTES AND COMMENTS.

Sir Charles Tupper has been made a Baronet, and Hon. J. S. D. Thompson a Knight.

The report that the proposed banquet to Mr. Dewdney at Regina had been declared off, is incorrect. It has only been postponed to a later date which has not yet been agreed upon.

His Honor Joseph Royal, Lieut.-Governor of the Northwest Territories has returned to Regina and preparations are being made for the calling of the Legislative Assembly. Mrs. Royal stayed behind at Montreal to be present at the marriage of her son. Miss Royal will give an at home at the Government house on the 11th inst., from 16 to 20 o'clock.

Another Ontario farmers' excursion is due here on the 15th inst. Let us hope that it may not be a day late. Northwest people are pleased to see their friends, and will give them a hearty reception. If they cannot get through their journey by Saturday night, why could they not stop over Sunday somewhere, say Qu'Appelle, and see how the Sabbath is observed in the Canadian Northwest?

Cleveland and retaliation by the United States against Canada for protecting her fisheries is receiving a great deal of attention from the press just now. Well, what are the Yanks going to do about it anyhow? Miss Canada is not going to let her big brother steal her property if she knows it, and he has flown into a passion and howls like a big-booby. The Old Lady across

the water does not think it worth while to administer a spanking to Johathan because she knows that her sturdy young daughter is well able to take care of her property.

"Mountain Echoes," is the name of a new publication started from the ashes of the dear "National Park Life," issued at Banff. It is a small but neat weekly paper and contains some good illustrations, got up in its own office, of the mountain scenery around Banff.

"The Dominion Illustrated," publication of which was commenced about six weeks ago, is keeping up its excellent character as an illustrated weekly. The engravings are of a very superior class, fully equal to the best published. It contains usually twenty pages, of illustrations and letter press, and is ably edited. The publishers are Messrs. G. E. Desbarrats & Sons, Montreal. Subscription price \$4.00 per annum; single copies ten cents. Orders taken at this office.

THE "SLOW" CANADIANS.

The "slow" Canadians are at it again.

A few years ago they had the hardihood to build a great line of railway across the continent; over rocks, muskies, prairies, waterfalls and through mountains.

Then they proceeded, without loss of time, to put it in good shape for traffic. When people in this country, where they even sleep in a hurry, were pointing the finger of scorn at their northern neighbors the latter were organizing for competition with the United States; and it is sufficient to say that they have, in some respects, been eminently successful.

American transcontinental roads are now prepared to credit Canadians with being shrewd and enterprising. So are certain New York and Chicago corporations that have only been checkmated in their designs upon St. Paul, Minneapolis, and the Northwest generally, by the daring enterprise and far-sighted policy of a number of Canadian railway builders, whose work to a great extent, is of an international character.

The latest feat of the "slow" Canadians is the establishment of a fast postal service between London, Eng., and Vancouver, British Columbia, Mail matter posted in London, May 27th was distributed in Vancouver, 6,500 miles distant, twelve days later. This branch of the Canadian postal service, bear in mind, is only in its experimental stage. The Canadian Pacific company intend, not only to shorten their time through the Rockies, but to put on a fast fleet on the Atlantic. When these things are done it is believed that the time between London and Vancouver will be reduced to ten and a half days.

We doff our cap to these "slow" Canadians. — Chicago Canadian American.

Battleford Herald: Like most compromises this has failed to give satisfaction to any one. Prohibitionists say it is over-riding the law; small hotel-keepers say it is making unfair discrimination against them; and brewers argue that if imported beer may be sold, they should in fairness be permitted to brew beer of similar strength in the Territories. The best way to get over the difficulty would be to keep things as they are until the several districts shall by a direct vote of the people decide for or against a change in the existing prohibitory law. Nothing short of a popular vote will satisfy the people.

Winnipeg Free Press: When the Northwest Assembly meets it will be heard from in no uncertain way on the liquor question. A more ridiculous farce than that which is now being enacted could not be contemplated. Either their should be liquor in the Territories or there should not. A middle course is impossible. If four per cent. beer is admitted the Prohibition principle is at once discarded. The moral sense of any community cannot be got to say that it is right to bring in four per cent. and to exclude five, six, seven, or any other per cent. It is not possible to be part virtuous and to concede that liquor of even a small percentage of alcohol properties may be generally consumed is to concede the whole question of Prohibition. This is so for several reasons. If it is right to admit four per cent. beer the community will insist upon the introduction of stronger liquors. There is no moral difference between getting drunk on three glasses of whiskey or ten glasses of four per cent. beer. Besides that the four per cent. concoction is a makeshift beverage of no use to the temperance man, and that only serves to incite the drinking man to go in quest of something more suited to his appetite.

Crab-Apple Preserves.

Crab-apple preserve is a pretty dish for either luncheon or the tea-table. To obtain it in perfection the following method is recommended: Pick the apples over carefully, leaving the stems on. Wipe them carefully and weigh them. To each pound of fruit add three-quarters of a pound of sugar. Put them into a preserving-kettle with nearly enough water to cover them. When the skin is tender and easily pierced the apples are taken out and a syrup made with the water and sugar. When the syrup reaches the boiling point the apples are put back into the kettle, and the whole allowed to simmer until the apples are uniformly clear.

SOFA ORNAMENTS.—A very effective ornamentation for a small sofa is made by taking a strip of satin plush, or of velvet, about five inches wide, and nearly the length of the sofa, and quite openwork pattern. When this is done put a narrow strip of similar material, but of a different color, around it as a plain border. Line it with stiff cloth, and apply it to the sofa with smooth, unmovable pins. It should not be placed in the centre of the seat, but be drawn forward so that it is just above the puff or band of plush which finishes the sofa cushion.

RAVIN BLENTER.—It is sometimes desirable to produce a small blister quickly. For this purpose nothing is better than concentrated water of ammonia. Put a few drops of it in a watch-crystal or any receptacle of the sort, cover it with a piece of absorbent cotton, invert on the spot to be blistered and press closely. In half a minute or so a red circle will appear on the skin around the edge of the containing vessel. It is an evidence that vesiculation has taken place, and the blistering material can be removed. The blister should be kept in the same manner as one obtained from cantharides.

ROASTED CHICKEN.—Do not attempt to broil an old or full-grown fowl; take a young chicken, split it down the back always; wipe the inside dry after removing the giblets, and place it on the grill-iron with the inside down. Keep it so until it begins to grow very brown, then turn it, but the moment the skin threatens to burn reverse it again. To find how it is cooking insert a sharp knife into the thickest part, if the flesh is pink at all return to the fire; when well done and browned lay it on a platter, inside down; butter, salt and serve.

BREAD JELLY.—Bread jelly is a simple delicacy which comes under the head of cookery for invalids, and is thus prepared: Take a French roll, cut it into thin slices and toast them on both sides to a golden brown; then put them into a saucepan with a quart of water (spring water, if it can be had), and simmer over the fire until they become a sort of jelly. To tell when this stage is reached take up a little in a spoon and allow it to cool. When done strain it through a thin cloth and flavor it with a little lemon juice and sugar. A little sherry may be added if liked.

LAYER CAKES.—Try this layer cake. Five eggs, their weight in fine flour; and also in sugar, and half their weight in butter. Melt the butter and mix it with the sugar, adding the yolks of the eggs, one by one, beating all the time, and then add the whites, which have been beaten to a stiff froth, adding the flour last. Bake in four jelly-cake tins. Marmalade or quince-jam is spread between the layers.

ORANGE JELLY.—The juice of two lemons, two Seville oranges, and twelve sweet oranges, the rind of the lemons and two oranges, one pint of sugar, a pint and a half of water, two ounces of gelatine and the whites of two eggs. The jelly and the above need not be cleared, and in that case the eggs should be left out, and the jelly only strained. A glass of orange wine may be put instead of the Seville oranges, or both may be left out.

Was Going to.

A Detroit traveler who put in a night at a village hotel in Indiana called the landlord aside in the morning and said:

"Sir, I never slept in such a wretched bed in all my life."

"You didn't, eh? Yes, I know it's a poor bed."

"And supper and breakfast were simply outrageous. Your cook doesn't know enough to mash potatoes."

"She doesn't, eh? Well, she isn't very bright, and that's a fact."

"The coffee was execrable."

"Yes, I don't like it myself."

"And the tea was simply horrible."

"I guess it was, though I don't drink tea."

"On the whole, my friend," continued the traveler, "you don't know how to run a tavern."

"I don't, eh? Well, I agree with you."

"Then why on earth don't you give it up?"

"I'm going to. I've traded the place for a saw-mill, and I go out to-morrow. Your bill will be two dollars."

A California Judge has decided that a man cannot recover damages from parents who ejected him from their house for frightening their baby into spasms while attempting to kiss it. Good for him! The baby has been put upon a long time. Why should he be kissed by old and young, and by invalids of every name and variety, whether he will or no, and nobody rise and protest? Let it be known that the man or woman who kisses a baby hereafter, without first obtaining the consent of the baby and the baby's guardians, must do it at his own risk, and not altogether at the risk of the baby, as hitherto—London Telegraph.

The finding of gold in grass is thus described by a San Francisco pioneer: "I remember when I was mining in Calaveras County that we struck some diggings about one mile from Winter's Bar, on the Mokelumne River, back in the foothills, some two miles below Campo Seco, where we found the gold in the grass roots as high as four bits to the pan; but prospecting about \$3 to \$5 cents, generally. The gold was all on, or very near, the surface, and to get it we had to wash out the grass roots. This, I think, was about 1853."

Gus de Smith and Miss Birdie McGlenis were taking a moonlight stroll on the beach at Galveston one night last week, when Gus remarked: "How pale the moon looks to-night."—"You'd be pale too, if you had to be up more or less, one night after the other, for a week or more at a time."—Texas Siftings.

The new sixpence rate for telegrams to all parts of Great Britain is not such a reduction as at first appears. The present rate is one shilling for twenty words, exclusive of the address. Under the new law the address is counted and charged for, and the minimum twelve instead of twenty words.

There is a salt lake in Hidalgo county, Tex., which is one mile in length, five miles in circumference and from three to four feet deep. Its bed consists of crystals of pure salt.

Northwest Prohibitory Alliance.

The Northwest Prohibitory Alliance was organized at the Preliminary Temperance Convention held at Regina on the 22nd November, 1887. A copy of the constitution is herewith enclosed.

SECRETARY'S OFFICE.

Qu'Appelle, Aug. 28, 1888.

DEAR SIR:

At a meeting of the Executive of the Northwest Prohibitory Alliance held at Regina on Saturday, 21st July last, a Committee was appointed to prepare and circulate an appeal to our Temperance friends in the Northwest to organize in every locality for the coming contest. The Committee beg to submit the following for your consideration:

The result of the late elections to the Northwest Legislature was that nearly every one of the twenty-two members chosen pledged to sustain the present law until such time as the people may be given an opportunity to vote on the question. One of the first acts of His Honor Lieutenant-Governor Royal was to introduce the principle of license by granting permits to sell four per cent. beer. This was directly contrary to the expressed wish of the people, and prompt and aggressive organization is imperatively necessary to resist this and protest against any other concessions.

It is proposed to hold a

TEMPERANCE CONVENTION

And the first annual meeting of the Northwest Prohibitory Alliance at Regina in the second week of the coming session of the Legislative Assembly, and it is imperative that such Convention should be as representative as possible.

Let meetings for organization be called in every locality, and let one or more delegates be appointed to attend the convention. As soon as the date of the meeting of the Assembly is announced you will be notified of the exact date of the Convention. It is the duty of every man who is opposed to the introduction of the License System into the Northwest Territories to see that his own locality has at least one representative at our Convention.

Let there be a Grand Rally so that our Temperance vote may be united to carry into effect the resolutions, etc., that may be adopted at that meeting.

In behalf of the cause of Temperance and Prohibition.

G. H. V. BULYEA, President Alliance.
JAMES WEIDMAN, Secretary
G. B. MURPHY, Committee.

FATHERS OF CONFEDERATION.

We will club the Winnipeg Sun and THE QU'APPELLE PROGRESS for \$1.75 per annum including the above valuable picture.

The Winnipeg Sun has arranged for a supply of the historic picture entitled "The Fathers of Confederation." It is a delightful engraving of artistic finish, 26½ inches by 37½ inches in size. It embodies life-like portraits of thirty-four of the leading men of Canada in 1864, including Sir John A. Macdonald, Sir George E. Cartier, T. D'Arcy McGee, Hon. George Brown, Hon. Oliver Mowat, Sir Charles Tupper, and Sir E. P. Taché. The scene is in the conference room at Quebec, the windows of which overlook the harbor and shipping, and the occasion is the conference which resulted in the confederation of the colonies in 1867. It is a charming work of art, and possesses great historic interest. It is given free to every yearly subscriber to the weekly Sun, the price of which has been reduced to \$1 per annum.

THE HIGHEST

MARKET PRICE

Will be paid for

Public Notice.

Leases of School Lands for Hay Cutting purposes.

UNDER authority of an Order in Council, dated the 22nd day of November, 1888, leases of School Lands in the Northwest Territories will be issued for hay cutting purposes, subject to the following conditions:—

The lease shall be for a term not exceeding five years, and shall be revocable at any time during its currency on one year's notice being given to the lessee, who shall not be entitled to compensation for any improvements made by him.

A lease shall not issue to any person for more than a section, or for less than a quarter-section.

Where there is only one applicant for the lease of a school-section or part of the same, the rental shall be at the rate of 25 cents per acre per annum, but where there is more than one applicant for such lease it shall be put up for tender at an upset rental of 25 cents per acre.

Applications for these leases should be made to the Local Agents of Dominion Lands.

A. M. BURGESS, Deputy of the Minister of the Interior, Department of the Interior, Ottawa, May 1st, 1888.

ADDRESS,

"THE PROGRESS," Qu'Appelle, N. W. T.

THE WANZER

SEWING MACHINES!

Received the following unprecedented distinctions at the Vienna Exhibition, 1873:

TWO MEDALS OF MERIT,

A distinction not obtained by any other Sewing Machine at the Exhibition. ONE GRAND SILVER MEDAL for the best Family and Manufacturing Sewing Machine.

The Emperor of Austria conferred upon Mr. E. M. Wanzer, THE IRON CROSS, and knighted him with the order of FRANCIS JOSEPH THE FIRST, for his valuable services in the Sewing Machine business, which were the highest honors conferred at the Exhibition. Mr. Wanzer is the only Sewing Machine manufacturer in Great Britain or its Colonies who received those distinguished honors.

JAMES WEIDMAN, AGENT

HOUSEHOLD NOTES.

Airing the House.

As all good housekeepers know that the airing of the house is of very great importance to the health and comfort of its inmates, the attending to this task should be one of the first duties of such people.

To not ventilate the rooms by opening all the windows, top and bottom alike, at once, as I have known some women do, is, for by so doing you not only ventilate the house but also you create a draught. The lower part of a window should never be raised for the purpose of ventilation, unless in very warm weather, or when wishing to air the bed covering. The poisonous air exhaled by the inmates of the house, and, consequently, should pass out through the opening made by lowering the top sash, at the same time allowing the pure air from the outside to rush into the room. If the windows do not let down from the top, leaving the ventilation of the rooms to the lifting of the lower sash. Well, the sooner such windows are made to open both ways, the better it will be for the airing of the house, and the health of the people who live in it.

Many persons occupying a chamber at night sleep with the window down some inches at the top, giving as a reason that they cannot sleep otherwise. This may be very true, because they have been accustomed to do this from childhood, and having naturally strong constitutions, they have no natural harm. But this way of sleeping is not advisable for any one in a climate such as ours, where on nights we have the weather soft and sultry, and during the night wake up, surprised to find the room covered, the consequence of a chilly, damp, north-easterly wind that has sprung up while we were asleep. Far better for us to ventilate the room well during the day, and depend on the possibility of fresh air during the night, with the addition of what comes in at the windows, which are never air tight, than endanger the health of our families and ourselves by the inhalation of damp night air.

When going from the chamber in the morning, lift from the bed all the covering and arrange it on chairs in such a way that the air will have free access to every part, open the windows, then leave the room, closing the door after you. Just worry about letting the bed stand unmade, but be sure it is well aired before attempting to make it, no matter if it does wait until afternoon; then turn the bed, if not too heavy, in which case shake it well, and proceed to cover as usual.

The other rooms may be ventilated by letting down the top-sash of the windows, and after closing the doors, letting them remain so until fully aired, unless in raw winter weather, at which time the air that comes from opening doors is generally, if not, as is needed.

Never open the window of a room, either top or bottom, in which there is a sick person, without first asking the advice of a physician, as in some of the notably acute lung diseases, the least draught very often proves fatal.

Wearing Wraps in Church.

A custom among the ladies against which the doctors protest. The heavy silk plush, fur trimmed wrap is the fashionable rage among the women this season. The silk plush coat of this year is trimmed with otter or beaver fur, from three to six inches deep. Even a seal-skin coat without trimming is not out of fashion, although it has not altogether lost its popularity. Philadelphia doctors have, however, declared against the heavy wrap, and especially against the fur collar, and the use of the seal-skin coat, upon the ground of the throat and lungs, and the improper use of heavy clothing in the climate of the city. The cause of many diseases of the throat and lungs has been traced to the use of wraps of this kind. "But," said an experienced physician, "they wear them if they can, and I am only given credit for having a spite against the furriers. Women go into heated rooms with these heavy wraps on, and with a heavy fur collar about their necks. They keep on the wraps, and when they get into a heated room, then they take off the collars, and half-unbutton the garments. Perhaps in a few minutes they go out in the cold air again, and do not close up the wraps until warmed by the chilly blasts that come from the doors. This is not a healthy custom, and is too warm for the season, and is not safe out-door wraps, except in the coldest weather."

For Burns and Scalds.

For burns and scalds nothing is more soothing than the white of an egg, which may be poured over the wound. It is softer as a varnish for a burn than collodion, and, being always at hand, can be applied. It is also more cooling than collodion, and, when used, which was formerly supposed to be the case, it is a pleasant way to soothe the pain. It is the contact with the air which gives the extreme discomfort experienced from the ordinary accident of this kind, and everything that excludes the air and prevents inflammation is the thing to be at once applied.

A Useful Suggestion.

Every one knows how soon the butt end of a chisel handles splits when daily exposed to blow of mallet or hammer. A remedy suggested by a Brooklyn man consists simply of sawing or cutting off the butt end of the handle as far as it makes it flat, and attaching by a few nails on the top of it two discs of sole leather so that the end becomes similar to the heel of the boot. The two thicknesses of leather will prevent all further splitting, and, in the course of time, they expand and overlap the wood of the handle. They are simply trimmed off all round.

Prunes. Use only the best selected prunes. Put them into warm water to clean them; let them stand a few minutes, rubbing gently between the hands to be sure that all dust and dirt is removed; rinse, and if rather dry and hard, put them into three parts of water to one of prunes, cover closely, and let them simmer for several hours. If the prunes are quite easily cooked, tender, less water may be used, but they should be simmered slowly as before. A slice of lemon, added just before the prunes are done, is thought by some to be an improvement. Cooked in this way, they will be soft and sweet, with a thick juice, and need no sugar whatever. Many persons who cannot eat fruit cooked with sugar, can safely partake of prunes cooked in this way.

LEMON PUDDING. Two stale Sally Lunan muffins or bread, juice two lemons, one teaspoonful extract lemon, one cup of sugar, four eggs, one tablespoonful butter, one pint milk, Grape Nuts, half a cup of raisins, put in a bowl, pour in milk, boiling cover with plate, set aside for thirty minutes, then add sugar, butter, lemon juice, extract and juice, mix together and pour into well-buttered pudding dish; bake in rather hot oven forty minutes. Serve with lemon sauce.

LETTER POCKET. A very pretty letter-pocket can be made of a palm-leaf fan covered with silk, satin or velvet. It is better to cut a piece of pasteboard the exact size of the fan and cover that, putting a loose pocket on the front to hold the letters, and then attaching the pasteboard to the fan and suspending it with a loop and bow of ribbon.

LEMON CUSTARD PIE. The yolks of three eggs, one cup of sugar, one-half cup of milk, one teaspoonful of butter, one level tablespoonful of cornstarch and one level teaspoonful of lemon juice. The whites of three eggs beaten to a stiff froth and sugar to taste.

PRIZE LIST OF Pheasant Forks Fall Show, THURSDAY, SEPT. 28, 1888.

CLASS 1—HORSES			
	1st.	2nd.	3rd.
Draught Stallion.....	\$5 00	\$3 00	\$2 00
General Purpose Stallion.....	5 00	3 00	2 00

Dominion Lands Regulations.

UNDER the Dominion Lands Regulations all surveyed even numbered sections, excepting 8 and 26, in Manitoba and North-West Territories, which have not been homesteaded, reserved to provide land for settlers, or otherwise disposed of or reserved, are to be held exclusively for homesteads and pre-emptions.

HOMESTEADS.

Homesteads may be obtained upon payment of an Office Fee of Ten Dollars, subject to the following conditions as to the residence and cultivation:—

In the "Mile Belt Reserve" which is the even-numbered sections lying within one mile of the Main Line or Branches of the Canadian Pacific Railway, and which are not set apart for town sites or reserves made in connection with town sites, railway stations, mounted police posts, mining and other special purposes, the homesteader shall begin actual residence upon his homestead within six months from the date of entry; and shall reside upon and make the land his home for at least six months out of every twelve months for three years from the date of entry; and shall within the first year after the date of his homestead entry, break and prepare for crop ten acres of his homestead quarter-section; and shall within the second year crop the said ten acres, and shall break and prepare for crop fifteen acres additional, making twenty-five acres; and within the third year after the date of his homestead entry he shall crop the said twenty-five acres, and break and prepare for crop fifteen acres additional; so that within three years of the date of his homestead entry he shall have broken and prepared for crop twenty-five acres, and within the third year after the date of his homestead entry he shall crop the said twenty-five acres, and break and prepare for crop fifteen acres additional; so that within three years of the date of his homestead entry he shall have broken and prepared for crop twenty-five acres, and within the third year after the date of his homestead entry he shall crop the said twenty-five acres, and break and prepare for crop fifteen acres additional; so that within three years of the date of his homestead entry he shall have broken and prepared for crop twenty-five acres, and within the third year after the date of his homestead entry he shall crop the said twenty-five acres, and break and prepare for crop fifteen acres additional; so that within three years of the date of his homestead entry he shall have broken and prepared for crop twenty-five acres, and within the third year after the date of his homestead entry he shall crop the said twenty-five acres, and break and prepare for crop fifteen acres additional; so that within three years of the date of his homestead entry he shall have broken and prepared for crop twenty-five acres, and within the third year after the date of his homestead entry he shall crop the said twenty-five acres, and break and prepare for crop fifteen acres additional; so that within three years of the date of his homestead entry he shall have broken and prepared for crop twenty-five acres, and within the third year after the date of his homestead entry he shall crop the said twenty-five acres, and break and prepare for crop fifteen acres additional; so that within three years of the date of his homestead entry he shall have broken and prepared for crop twenty-five acres, and within the third year after the date of his homestead entry he shall crop the said twenty-five acres, and break and prepare for crop fifteen acres additional; so that within three years of the date of his homestead entry he shall have broken and prepared for crop twenty-five acres, and within the third year after the date of his homestead entry he shall crop the said twenty-five acres, and break and prepare for crop fifteen acres additional; so that within three years of the date of his homestead entry he shall have broken and prepared for crop twenty-five acres, and within the third year after the date of his homestead entry he shall crop the said twenty-five acres, and break and prepare for crop fifteen acres additional; so that within three years of the date of his homestead entry he shall have broken and prepared for crop twenty-five acres, and within the third year after the date of his homestead entry he shall crop the said twenty-five acres, and break and prepare for crop fifteen acres additional; so that within three years of the date of his homestead entry he shall have broken and prepared for crop twenty-five acres, and within the third year after the date of his homestead entry he shall crop the said twenty-five acres, and break and prepare for crop fifteen acres additional; so that within three years of the date of his homestead entry he shall have broken and prepared for crop twenty-five acres, and within the third year after the date of his homestead entry he shall crop the said twenty-five acres, and break and prepare for crop fifteen acres additional; so that within three years of the date of his homestead entry he shall have broken and prepared for crop twenty-five acres, and within the third year after the date of his homestead entry he shall crop the said twenty-five acres, and break and prepare for crop fifteen acres additional; so that within three years of the date of his homestead entry he shall have broken and prepared for crop twenty-five acres, and within the third year after the date of his homestead entry he shall crop the said twenty-five acres, and break and prepare for crop fifteen acres additional; so that within three years of the date of his homestead entry he shall have broken and prepared for crop twenty-five acres, and within the third year after the date of his homestead entry he shall crop the said twenty-five acres, and break and prepare for crop fifteen acres additional; so that within three years of the date of his homestead entry he shall have broken and prepared for crop twenty-five acres, and within the third year after the date of his homestead entry he shall crop the said twenty-five acres, and break and prepare for crop fifteen acres additional; so that within three years of the date of his homestead entry he shall have broken and prepared for crop twenty-five acres, and within the third year after the date of his homestead entry he shall crop the said twenty-five acres, and break and prepare for crop fifteen acres additional; so that within three years of the date of his homestead entry he shall have broken and prepared for crop twenty-five acres, and within the third year after the date of his homestead entry he shall crop the said twenty-five acres, and break and prepare for crop fifteen acres additional; so that within three years of the date of his homestead entry he shall have broken and prepared for crop twenty-five acres, and within the third year after the date of his homestead entry he shall crop the said twenty-five acres, and break and prepare for crop fifteen acres additional; so that within three years of the date of his homestead entry he shall have broken and prepared for crop twenty-five acres, and within the third year after the date of his homestead entry he shall crop the said twenty-five acres, and break and prepare for crop fifteen acres additional; so that within three years of the date of his homestead entry he shall have broken and prepared for crop twenty-five acres, and within the third year after the date of his homestead entry he shall crop the said twenty-five acres, and break and prepare for crop fifteen acres additional; so that within three years of the date of his homestead entry he shall have broken and prepared for crop twenty-five acres, and within the third year after the date of his homestead entry he shall crop the said twenty-five acres, and break and prepare for crop fifteen acres additional; so that within three years of the date of his homestead entry he shall have broken and prepared for crop twenty-five acres, and within the third year after the date of his homestead entry he shall crop the said twenty-five acres, and break and prepare for crop fifteen acres additional; so that within three years of the date of his homestead entry he shall have broken and prepared for crop twenty-five acres, and within the third year after the date of his homestead entry he shall crop the said twenty-five acres, and break and prepare for crop fifteen acres additional; so that within three years of the date of his homestead entry he shall have broken and prepared for crop twenty-five acres, and within the third year after the date of his homestead entry he shall crop the said twenty-five acres, and break and prepare for crop fifteen acres additional; so that within three years of the date of his homestead entry he shall have broken and prepared for crop twenty-five acres, and within the third year after the date of his homestead entry he shall crop the said twenty-five acres, and break and prepare for crop fifteen acres additional; so that within three years of the date of his homestead entry he shall have broken and prepared for crop twenty-five acres, and within the third year after the date of his homestead entry he shall crop the said twenty-five acres, and break and prepare for crop fifteen acres additional; so that within three years of the date of his homestead entry he shall have broken and prepared for crop twenty-five acres, and within the third year after the date of his homestead entry he shall crop the said twenty-five acres, and break and prepare for crop fifteen acres additional; so that within three years of the date of his homestead entry he shall have broken and prepared for crop twenty-five acres, and within the third year after the date of his homestead entry he shall crop the said twenty-five acres, and break and prepare for crop fifteen acres additional; so that within three years of the date of his homestead entry he shall have broken and prepared for crop twenty-five acres, and within the third year after the date of his homestead entry he shall crop the said twenty-five acres, and break and prepare for crop fifteen acres additional; so that within three years of the date of his homestead entry he shall have broken and prepared for crop twenty-five acres, and within the third year after the date of his homestead entry he shall crop the said twenty-five acres, and break and prepare for crop fifteen acres additional; so that within three years of the date of his homestead entry he shall have broken and prepared for crop twenty-five acres, and within the third year after the date of his homestead entry he shall crop the said twenty-five acres, and break and prepare for crop fifteen acres additional; so that within three years of the date of his homestead entry he shall have broken and prepared for crop twenty-five acres, and within the third year after the date of his homestead entry he shall crop the said twenty-five acres, and break and prepare for crop fifteen acres additional; so that within three years of the date of his homestead entry he shall have broken and prepared for crop twenty-five acres, and within the third year after the date of his homestead entry he shall crop the said twenty-five acres, and break and prepare for crop fifteen acres additional; so that within three years of the date of his homestead entry he shall have broken and prepared for crop twenty-five acres, and within the third year after the date of his homestead entry he shall crop the said twenty-five acres, and break and prepare for crop fifteen acres additional; Little Local Links in the Town's Chain of History.

QU'APPELLE.

—Hurrah for Bunn & Ross.

—Mr. W. Syme Redpath entertained his friends to a picnic on Tuesday.

—Mr. R. H. Shore left for Winnipeg on Friday last. His family follow in a few days.

—There is a movement on foot in town to get up a reading room and library association.

—Mr. A. C. Pateron has received his official appliances with which to go on his tour of inspection of weights and measures.

—Mr. E. Whalen and Mr. C. Parish cut and set up 80 acres of heavy grain in five days last week, with a Toronto Binder. Who beats this?

—Mr. C. E. Cullen was on a visit to Grenfell last week. He was the guest of Col. Lake. Mr. Cullen reports excellent crops in that section.

—One of our enterprising merchants was unusually smiling and happy yesterday afternoon. His wife had just presented him with a fine young son.

—Next Wednesday the nomination to fill the vacancy in the Commons representation for Eastern Assiniboia will take place at Broadview. A number of our citizens intend to go down.

—There was a heavy rain last night, but as the sun is now out strong again it is not expected to do any harm to the grain still unharvested. As the ground was becoming dry the rain will do good to roots and garden stuff.

—On Tuesday a half mile running race took place here between Mr. Jas. Scott's Humming Bird and Wood Mountain Dan, now the property of Mr. Clink, of Battleford. Mr. Scott's horse won. Mr. Clink left the same day for Fort Qu'Appelle.

—Work was begun this morning digging a hole for a tank to hold 100 barrels of water. The work is being done under the direction of the Board of Trade as a part of the system of fire protection for the town. The tank will be on the south-east corner of the intersection of Qu'Appelle street and Ninth avenue.

—At the Queen's: C. Robinson, Hamilton; J. Harrington, W. E. Jones, Touchwood; W. J. McKenzie, W. W. McMillan, Winnipeg; J. Hewitt, Moosomin; W. Broley, Miss Broley, W. S. Grant, W. Boyd, J. Wallace, Indian Head; A. R. Carmichael, Prince Albert; W. Hays, Hayward; J. W. Kerr, McLean; C. A. Kohn, Le Maus, Iowa; G. Stewart, Toronto; A. W. Taylor, Regina; J. Matchett, H. Matchett, Balgonie; G. Goldie, H. Cargoe, Fort Qu'Appelle.

—At a meeting of the directors of the South Qu'Appelle Agricultural Society held on Wednesday, it was decided to hold the Show on Wednesday, the 3rd of October, 1888. In order to obtain the Government grant of \$250 a certificate showing a membership of 84 has to be sent to the Minister of Agriculture before the 15th inst., so the same must be sent from here not later than the 11th inst. Farmers are therefore requested to pay their subscriptions at once to the Secretary-Treasurer. Thirty more names are required to make up the necessary 84.

—Mr. and Mrs. W. R. Tucker went west on Monday to White Cap's Sioux Indian Reserve on the South Saskatchewan near Saskatoon, where they have been appointed in charge of the Methodist mission school about to be opened there. Mr. Tucker came up here in June last to go into Indian mission work. Rev. A. Andrews, of this place arranged with the Government for the establishment of the mission on White Cap's Reserve. Mr. Tucker then sent for his affianced, Miss F. Vokes, of Milverton, Ont., who came up here and they were married in the Methodist Church on the 27th ult. We wish the young and happy couple much success in the work to which they have devoted themselves.

—The regular monthly meeting of the Qu'Appelle Board of Trade was held last evening. A large amount of important business was transacted. The committee appointed to sink tanks at a previous meeting was re-informed, and instructed to proceed with the work at once. A resolution was passed requesting the C. P. R. authorities to allow the Ontario excursionists expected on the 15th to remain over here a day. A committee was appointed to procure an exhibit of farm produce to send to the eastern fairs, and a committee was appointed to confer with Mr. C. E. Cullen and wait upon the municipal council with the object of pressing upon that body the appointment of Mr. Cullen as immigrant agent in Europe during the coming winter.

—Mr. W. E. Jones is in town.

—Judge Maguire, Mrs. Maguire and family went north to Prince Albert yesterday. The Judge had just returned from a trip east for the summer.

—Messrs. Bunn & Ross to-day marketed at McMillan's mill the first No 1 hard wheat grown this season. They threshed on Tuesday, and their wheat turns out on an average between 34 and 35 bushels to the acre. At the mill the wheat was pronounced to be of first class quality, and the highest price was promised for it. Prices have not yet been fixed but may range anywhere from 80 cents to \$1 per bush.

—At the Leland: A. E. MacCaul, H. W. Kennedy, Staff Sgt. Fyfe, Regina; P. G. Inard, E. C. Boyce, Chickney; R. H. Clinie, Hamilton; Judge Maguire, Mrs. Maguire, Fred. Maguire, Miss MacFarlane, and Servants, Prince Albert; A. W. R. Markley, Calgary; Leon Labonde, S. R. Edwards, W. S. Grant, W. S. Burns, J. C. Gillespie, C. H. Mahon, Winnipeg; E. Sworder, T. Thompson and Son, Jas. Thorburn, Fort Qu'Appelle.

Correspondence.

To the Editor of the Progress,—

SIR: In reply to a letter in THE PROGRESS of the 30th Aug., commenting upon how the people of Qu'Appelle treated the C. P. R. excursionists at their picnic held here, I wish to say on behalf of the committee and the people of Qu'Appelle that the agreement between us, so far as I knew anything about the arrangements, were more than carried out by the people of Qu'Appelle. The offer that was made to Mr. Kenney who was here to make arrangements, was that we would fix up the grounds, furnish a dancing platform and provide music for the dancing or in lieu of this to pay the Treasurer of the C. P. R. committee the sum of thirty dollars and let them prepare the grounds and booths for themselves. I also understood that the Qu'Appelle Brass Band would play a few tunes upon the arrival of the trains at the station but was not to play on the grounds. Why they did not play I cannot tell. If they expected the Qu'Appelle band to play why did they come provided with the Regina band, having two bands would not be in keeping with the rest of their program. The writer states that we were to fix up swings, this is correct but upon enquiry for the ropes, which were to be sent to us, the evening before the picnic I was told that they were not there, nor did I know that ropes had been sent until the evening after the picnic. The stoves I know nothing about. The complaint made to me about the dancing platform was that it should have been enclosed in on the other two sides. The reason given for this was that every Tom, Dick and Harry could go in and dance without paying for it. I left the shaded sides open by request, it was said that to enclose it in all round made it too warm, and looking at it from a pleasure standpoint I think it will be admitted that it was better left open, from a pecuniary point of view it may be different. This far the writer of the letter in his opinion may have stuck to the truth, but when he states that we did not even see that a barrel of water was on the grounds he makes a deliberate misstatement of facts, as I made arrangements to have water taken to the grounds and instructed the man who took it to provide all the water that was wanted to all parties. I saw the water delivered myself and paid for it. The C. P. R. committee had exclusive right to sell refreshments on the grounds. Besides fixing up the grounds, which cost upwards of \$25, the people of Qu'Appelle paid Mr. Kenney the sum of \$30 in cash and I understood that this was to be given in prizes for athletic sports. Where were they? The writer talks about the gentleman, who had charge of fixing up the grounds, insulting him. As it is generally known that I am the man he means, I will tell you what this insulting consists of. The writer came to me shortly after the trains came in and talked a good deal about the grounds, swings, dancing booth, etc., but what seemed to be uppermost in his mind was that he wanted a table to sell his fruit on and said that it would take a couple of plank to do it and that he would have to pay to get them taken over. I then was getting tired talking about such a trifling matter and I did offer him fifty cents to take the plank over, hence the insult. The writer says that the C. P. R. employees will hereafter hold their picnic elsewhere. The selection of the place to hold their picnic rests with themselves, but when they go trafficking the supposed advantages that it may be to a town for a money consideration to the highest bidder, and then talk about not having due attention and respect paid them, there is a certain ridiculousness about the complaint which renders further comment unnecessary.

The insult to the people of Qu'Appelle about the beer selling I hurl back, and say that the majority of the people of Qu'Appelle do not sell or drink beer. The cost of completing the arrangements which the writer complains of, would be about as follows:

Taking over two planks as fruit stands \$.50.
Furnishing Stoves, etc. 1.00.
Putting up ropes for swings 1.00.

Total..... \$2.50.

This could have been done after the arrival of the trains and before the people went to the picnic grounds, the base ball match being played upon different grounds and was not over till after 12 o'clock. I will conclude by saying little men for little things.

A. M. McLANE.
Chairman of Qu'Appelle Committee.

Nasal Catarrh.

About eight men suffer from nasal catarrh where one woman is a victim. One reason for this difference is that men keep their heads in a sensitive condition from the moisture and heat of the hat. A man with a vital constitution walks into the garden with his delicate wife. They both start bareheaded, but he stops and runs back to the house to get his hat, lest he take cold, while his delicate wife goes on without the slightest fear. A man cannot wear his hat all the time, for he must take it off when he eats and when he sleeps. The difference between the temperature under the hat and a well-ventilated room during the day or at night gives many a cold.

How to Walk for Exercise.

If walking alone is adopted as the means to counteract the effect of too much sitting, then care should be taken that system enters into the walk. A slow, desultory sort of walk is of no earthly use; it simply tires one without any beneficial results. The walking should be brisk, with the head up and the chest thrown forward. The breathing should be regular and as free as the swing of the limbs. The distance is optional, of course, but two miles ought to be no task for the man who wants to improve his health. The distance can be increased as the pedestrian begins to feel the benefit of the walking.

The Popular Science News asserts that the average length of life is constantly increasing, and the time may yet come when persons a hundred years old will excite no more curiosity than one of eighty years at the present time.

Ryan corn-crook is a valuable fertilizer on any soil that is deficient in potash, and are worth saving for this purpose alone, while if rotted with manure they are considerably more valuable, and in cleaning up the hedges considerable pains should be taken to gather up and mix them with the manure.

Could we but utilize all the waterpower lifted from the ocean by the sunbeams and waited by the zephyrs over the land, what vast factories might be run. What magnificent Niagara might we create. In a recent paper to the Royal Society of Edinburgh, Mr. John Murray sought to give the world's rainfall in figures. The area of country having an inland drainage, equal to 11,486,350 square miles, receive 245 cubic miles of rain yearly. The total areas draining directly to the ocean equal 42,211,000 square miles, of which 38,823,750 square miles have more than ten inches of annual rainfall, and discharge into the sea 659 cubic miles of water each year. By these means rather more than 5,000,000,000 tons of solids are carried to the ocean annually.

A wash of one part of nitric acid in ten parts of water will, it is said, impart a stain resembling mahogany to pine wood that does not contain much resin. When the wood is thoroughly dry shellac varnish will impart a fine finish to the surface. A glass of carbolic or lime will produce a rosewood finish. A turpentine extract of alkali root produces a beautiful stain which admits of French polishing. Asphaltum, thinned with turpentine, makes an excellent mahogany color on new wood.

Professor Thompson, in a recent lecture, informed his audience that the magnetic pole is now near Boothia Felix, or more than 1,000 miles west of the geographical pole. In 1857 the magnetic pole was due north, it having been eastward before that year. Then it began to move westward until 1876, when the maximum was reached. This is now being steadily diminished, and in 1976 it will again point due north. Professor Thompson says that the changes which will have been observed not only in the direction, but in the strength of the earth's magnetism, will show that the same causes which originally magnetized the earth are still at work.

THE GRADLE.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Biding Hall at Regina, Assiniboia" for the North West Mounted Police, will be received at this office until Tuesday, 25th Sept. 1888, for the several works required in the erection of Biding Hall, Regina, Assiniboia, for the North West Mounted Police.

Specifications and drawings can be seen at the Department of Public Works, Ottawa, and at the office of the Clerk of Works at Regina, on and after Saturday, 1st Sept., and tenders will not be considered unless made on the form supplied and signed with actual signatures of tenderers.

An accepted bank cheque, payable to the order of the Minister of Public Works, equal to five per cent. of amount of tender, must accompany each tender. This cheque will be forfeited if the party decline the contract, or fail to complete the work contracted for, and will be returned in case of non-acceptance of tender.

The Department does not bind itself to accept the lowest or any tender.

By order. A. G. BOEIL, Secretary.

Department of Public Works, Ottawa, August 30th, 1888.

Farmers Read This.

THE PUBLISHERS OF THE **Nor'-West Farmer**

being desirous of putting the price of their journal within the reach of all, make the following liberal offer to the Farmers of Manitoba and the Northwest: all sending in

\$1.00

(The yearly subscription price) before the 1st of October, 1888, will receive THE FARMER from August, 1888, to December, 1889, inclusive.

Those subscribing before the 1st of November will receive the journal from September, 1888, to December, 1889, inclusive, etc., etc.

New subscribers may have their choice of the above offer, or THE FARMER for 12 months with either of the premiums specified below.

Anyone sending us \$3 for three subscriptions will receive one copy of the NOR'-WEST FARMER free for period as above.

EVERY FARMER, and every one wanting to know the live facts of Northwestern farming, should

BUY THE NOR'-WEST FARMER

and read it. He will find there a full line of information about Dairy, Stock Breeding, Field and Garden Work, sketches of the best farms and most reliable modes of cultivation, news notes from all parts of the country, and able discussions by practical farmers of the most important aspect of every branch of Northwestern farming. For the household there will be found selected readings, grave and gay, in prose and verse, and no pains will be spared to keep the publication abreast of the wants of the times. Our matter is suited to the latitude and longitude of the centre of the Dominion and only such papers as are really appropriate to the wants of the country ever find a place there.

New subscribers will receive in addition their choice of the following premiums: The celebrated picture "The Horse Fair," The Standard Poultry Journal, or Home and Health.

Subscription \$1 Per Annum.

Sample copies sent on application, Address: NOR'-WEST FARMER, WINNIPEG, MAN.

Agricultural Societies in the North West Territories.

IN order to give effect to the vote of the last Session of Parliament of \$10,000 in aid of Agricultural Societies in the North West Territories, the following appointment and regulations have been decided:—

1. An Agricultural Society having fifty members, each of whom shall have subscribed \$1, may receive from the above vote \$150, and \$3 for every additional subscriber of \$1 each, not exceeding eighty-three in all; or, for a subscription of \$87.33 the Society having a membership as above would be entitled to receive \$250 which is the largest amount that will be paid from the vote to any one Society.

2. It is a condition of any payment under the preceding section that the Treasurer of any Agricultural Society shall be required to furnish, not later than the 15th September next, to the Minister of Agriculture, a statement showing:—

(a) The name of the Society, and where located;

(b) The name of the several officers; and

(c) A copy of the list of the members of the Society, with the amounts subscribed and paid, set opposite the name of each.

3. This statement must be certified by a declaration made before a Justice of the Peace, that it is true, and that the subscription is paid.

By order of the Minister of Agriculture, JOHN LOWE, Deputy-Minister of Agriculture, Department of Agriculture, Ottawa, Aug. 10, 1888.

\$5 REWARD.

A BAY MARE, branded A on left hip and shoulder, lost from sec. 25 tp. 18 T. 17, Balgonie P. O., about the 11th inst. She had on a set of harness when lost. To any person returning her or giving such information as will lead to her recovery the above reward and expenses will be paid.

Balgonie, Aug. 21, 1888. M. WAGONER.

LESLIE GORDON

THE WANZER

SEWING MACHINES!

Received the following unprecedented distinctions at the Vienna Exhibition, 1873:

TWO MEDALS OF MERIT

A distinction not obtained by any other Sewing Machine at the Exhibition. ONE GRAND SILVER MEDAL for the best Family Manufacturing Sewing Machine.

The Emperor of Austria conferred upon Mr. R. M. Wanzer, THE IRON CROSS, and knighted him with the order of FRANCIS JOSEF THE FIRST, for his valuable services in the Sewing Machine business which were the highest honors conferred at the Exhibition. Mr. Wanzer is the only Sewing Machine manufacturer in Great Britain or its Colonies who received those distinguished honors.

JAMES WEIDMAN, AGENT
